EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel McClure on 08/31/05.

The application has been amended as follows:

In claim 1, line 9, after "liquid crystal", --responding to a voltage between the pixel and common electrodes -- has been added.

In claim 9, line 10, after "liquid crystal", --responding to a voltage between the pixel and common electrodes -- has been added.

In claim 22, line 10, after "liquid crystal", --responding to a voltage between the pixel and common electrodes -- has been added.

In claim 33, line 11, after "between", --and bounded by -- has been added.
strates.

The following is an examiner's statement of reasons for allowance:

None of the prior art taught or fairly suggested

Re claims 1,9 and 22- the claimed structure with the OLED located as claimed in respect to the pixel and common electrodes which to which the liquid crystal responds, - adding an amendment indicating that the liquid crystal is "responding to a voltage between the pixel and common electrodes".

Re claim 33- the claimed structure with the OLED located as claimed in response to the electrodes that produce a parallel field (which are on the opposite substrate).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
